(a) This section establishes the competitive proposal procedure that the department shall use to enter into a public-private agreement with an operator under this article.

- (b) The department may pursue a competitive proposal procedure using a request for qualifications and a request for proposals process or proceed directly to a request for proposals.
- (c) If the department elects to use a request for qualifications phase, it must provide a public notice of the request for qualifications, for the period considered appropriate by the department, before the date set for receipt of submittals in response to the solicitation. The department shall provide the notice by posting in a designated public area and publication in a newspaper of general circulation, in the manner provided by IC 5-3-1. In addition, submittals in response to the solicitation may be solicited directly from potential offerors.
- (d) The department shall evaluate qualification submittals based on the requirements and evaluation criteria set forth in the request for qualifications.

V

- (e) If the department has undertaken a request for qualifications phase resulting in one (1) or more prequalified or shortlisted offerors, the request for proposals shall be limited to those offerors that have been prequalified or shortlisted.
- (f) If the department has not issued a request for qualifications and intends to use only a one (1) phase request for proposals procurement, the department must provide a public notice of the request for proposals for the period considered appropriate by the department, before the date set for receipt of proposals. The department shall provide the notice by posting in a designated public area and publication in a newspaper of general circulation, in the manner provided by IC 5-3-1. In addition, proposals may be solicited directly from potential offerors.
- (g) The department shall submit a draft of the request for proposals to the budget committee for its review before the issuance by the department of the request for proposals to potential offerors. The request for proposals must:

 - (3) specify the factors, criteria, and other information that will be used in evaluating the proposals;

 - (6) contain or incorporate by reference the other applicable contractual terms and conditions; and

(7) contain or incorporate by reference any other provisions, materials, or documents that the department considers appropriate.

If the draft of the request for proposals submitted for review provides for any tolls, the budget committee shall hold a meeting and conduct a review of the draft of the request for proposals not later than ninety (90) days after the date the draft request for proposals is submitted for review.

- (h) The department shall determine the evaluation criteria that are appropriate for each project and shall set those criteria forth in the request for proposals. The department may use a selection process that results in selection of the proposal offering the best value to the public, a selection process that results in selection of the proposal offering the lowest price or cost or the highest payment to, or revenue sharing with, the department, or any other selection process that the department determines is in the best interests of the state and the public.
- (i) The department shall evaluate proposals based on the requirements and evaluation criteria set forth in the request for proposals.
- (j) The department may select one (1) or more offerors for negotiations based on the evaluation criteria set forth in the request for proposals. If negotiations are unsuccessful, the department shall terminate the procurement, may not award the public-private agreement, and may commence a new procurement for a public-private agreement. If the department determines that negotiations with an offeror have been successfully completed, the department shall, subject to the other requirements of this article, award the public-private agreement to the offeror.
- (k) Before awarding a public-private agreement to an operator, the department shall schedule a public hearing on the preliminary selection of the operator and the terms of the proposed public-private agreement.
